Title: Government flood adaptation strategies using societal risk

Authors:
Yi Hui - 6062849
Maartje Ooms - 5892945
Jasmijn Goudsmit – 5100259

ID:
(We submitted the RBB, but we cannot find the ID anywhere. So maybe there is no ID on the website.)

Detailed conceptualization and implementation of the RBB can be seen in the RBB website https://www.agentblocks.org/ with the information above or at the following website link: https://github.com/Codekiller258/SEN1211-GROUP-10-RBB.git. Please notice that in the RBB website, a simple RBB without visualization, network and example of real data input is provided, while in the github link, both a comprehensive RBB and a simplified RBB are provided. The main reason for this is that we cannot transfer the code of the comprehensive one to the RBB website and thus we have made a simpler (but also complete) one.
